

# NASA Space Place Pumpkin

Full directions: [spaceplace.nasa.gov/pumpkins](https://spaceplace.nasa.gov/pumpkins)

## Directions:

1. Print this template.
2. Place the paper on the pumpkin and secure it with tape.
3. With a black permanent marker, slowly trace the outline of the shape. The marker will bleed through the paper and leave marks on the pumpkin for you to use as a guide.
4. Remove the paper.
5. Use your black marker to trace the outline of the shape.
6. Fill in the design with the black marker or black paint.

Have you ever wondered how your phone knows exactly where you are on Earth? It uses signals from satellites high up in space. There are over 30 satellites used for this Global Positioning System. They orbit over 16,000 miles (26,000km) above the Earth!
