

Earth Science on The Space Place

Earth Fun Quest

Instructions: Go to spaceplace.nasa.gov. For each "find" below, type into the Space Place Search field the word in **bold** letters. What you are looking for will be on the resulting menu, but may not be the only thing on the menu. When you find the item, **write in the answer or the title of the page or paste in the URL.**

Find a story that includes a **bird**. What is the bird doing?

Find a game in which you help to get rid of **greenhouse gases** in the air. Name one greenhouse gas.

Play **Spuzzled**. What country in South America is suffering deforestation?

Find something on The Space Place you can make with **candy**. What is it?

Find an article in which **dinosaurs** play a part.

Find an adventure game about Earth's **wild weather**. What name did you pick for your ship?

Find a game about the **salt** in the ocean. What is the submarine trying to reach?

Find an activity using modeling clay and **dental floss**. What would you be making?

Find a flying **monster** with nine eyes. What is the name of the thing that is modeled in Lego bricks?

Find a **walrus**. How many hairs does he have on top of his head?
